Comments

Instructor

Instructor Comments (if any):

Student_22295540	I have taken courses prior to this one with the same Instructor. I recall having a very good experience prior and again have received a great training course. He doesn't go too fast or too slow with the lectures, demos, etc. I would definitely take another course from this instructor, given that I would know ahead of time who the instructor (if possible).
Student_22452841	I like the help he offered using the shared screen and taking over our screen to analyze our codes and helped us fixed the errors
Student_22452852	Pros: Knowledgeable, Managed the Learning Tools Well, Very Much On Time and kept with the training course. Cons: Seemed Distracted at Times.

Comments (Courseware):

Student_22295540	In some of the labs, the notes were not specific on what was to be displayed on the screen.
Student_22452841	the learning contents and materials are complete and comprehensible
Student_22452852	Pros: Liked how the labs went into detailed steps at the end of the notes. Liked some of the demos performed by Jason Cons: Didn't really go into the labs and review them. A lack of demos!, Very little interaction from the group, which meant we mostly heard Jason talk for 5 days. Information was a little boring in sections. More Demos , Less Technical Talk.

Overall

How can we improve the training to make it more relevant to your job?

Student_22295540	I believe everything for this training is perfect just the way it is.
Student_22452841	larger screens would be nice or a third one.. ;-)
Student_22452852	I was sort of disappointed in the training, the one thing I wanted to walk away with was a clear understanding on how to set up an online form and connect it to a database. I sort of have an understanding on how to do that, but I felt that we needed to go more in depth as far as the coding and examples. I did learn a few things about Visual Studio and the different items in the Toolbar, so not completely a waste of time, but for \$2,400, I think I could have learned what I did from a \$30 Amazon book and doing some trial and error.

Report Recommendations

Interpreting the Report

Below are tips to help you understand the information in the report. For additional information, please click the Help tab above the report.

Summarizes scores from each student for selected question categories and questions; compare and analyze scores for all students that completed evaluations.

Student comments provide additional insight into the scores displayed within the report.

Determine the students' overall perceived value derived specifically from training to proactively manage future training events.

Recommended Actions

Below are recommended next steps to take after reviewing the information in this report. Additionally, you'll find links to automatically run complementary reports for drilling-down further into the data or analyzing the information in another way.

If any learner rated the class much lower than others, and the learner provided an email address, follow up with that person to gather additional feedback regarding the scores. Share that feedback with instructor and course managers as areas for improvement.

If any learner rated the class much higher than others, especially in the areas of job impact or business results, follow up with those learners to gather additional feedback on how they were able to maximize their use of what they learned on the job. Share this feedback with course managers to ensure they share the knowledge with future learners to maximize job impact and business results.

Schedule this report to be emailed automatically to the course and instructor managers on a daily basis so they are able to review performance on a regular basis.

Recommended Links

Run the Learner Comments report to review all the qualitative feedback for specific approaches to make the learning more effective and impactful.

Run the Quick Question report to summarize the scale-based and multiple-choice answers for all of the evaluations.

Run the Performance to Goals report to view how these results compared to your goals.
